

WebCT: creating a user account and getting registered to an e-course

WebCT is a web-based learning environment where all IUA e-courses are stored. Following manual covers procedures of making a user account and self-registration to the e-course.

1. Navigate to <http://webct.e-uni.ee>
2. From the institution list select "Kõrgkoolid"

If You don't have a WebCT user account yet, please take the following steps to create one. Students who already have an account should skip these steps.

Please note, that in case You have your account created prior to May 2008, You may need to contact educational technologist to reset the password.

1. Press the Create Account button	
2. Fill out the form, specifying your <i>correct</i> first and last names and e-mail address. Please pay attention to the <i>Secret Question</i> and <i>Secret Answers</i> fields - those will help You to restore your password in case of loss. When You're done, press Save button	
3. Your WebCT user account is ready, use Entry Page button to go back and proceed	

When You have Your WebCT account set up, You can register to a course.

1. Press the Course List button	
2. From the institution list select International University Audentes	
3. From the list select the appropriate school	
4. From the list select the uncategorized category	
5. Click on the little green triangle next to school's name to Expand the list of available courses	
6. Locate a self-register icon next to the desired course name and click on it	
7. Please enter your WebCT user name and password, then click Register button	
8. When you finish, press the Go to My Blackboard button	

Afterwards, use **Log In** button on the entry page to log in and explore your courses.
